

Fuel for Thought

Ecofest 2017

It's that time of year again...Sunday 4th June is Ecofest again. It's always a highlight in the calendar for us at QER. We are looking forward to joining with the Gladstone Community to celebrate and raise awareness of the beautiful environment in which we are all privileged to live.

Bruce Andersen
Site Superintendent,
QER

This year the theme is "Be Great to Our Barrier Reef".

We'd love it if you stop by for a chat at the QER stand. We're holding a guessing competition which focusses on some of the benefits of Australia producing our own fuel, safely onshore, right here in Gladstone. We are offering a wonderful prize – a family getaway to the beautiful Heron Island resort.

For the kids there's another great surprise this year. If you can tell us just one fact about QER and Australia's fuel future, the prize is a (soon to be famous) QER light up yo-yo.

Thanks to Gladstone Regional Council who make it all possible. I hope you can make it to Ecofest. It's a great day out and lot of fun.

Could this amazing QER light up yo-yo be yours?

*See you at
Gladstone Ecofest*

Sunday 4th June. 9am to 3pm.

*Tondoon Botanic Gardens,
Glenlyon Road, Gladstone.*
