QER Supports the 14th GEA Major Industry Conference

Bruce Andersen
Site Superintendent,
QER

Once again this year, QER is sponsoring the Gladstone Engineering Alliance Major Industry Conference, which will be held at the Gladstone Entertainment and Convention Centre on Thursday, October 12, 2017.

It's a great event where the Gladstone industry community can connect with each other and with local businesses, find out what's happening and identify opportunities for collaboration. In my experience, everyone who is anyone is there, from suppliers to CEO's and major project managers.

The 14th Conference will be important event for Central Queensland. At a time when our region needs a boost, it's an opportunity to hear updates on many of the projects currently under development.

Some of the speakers this year will be Moreton Resources CEO Jason Elks (South Burnett Coal Project), Carbine Resources CEO Tony James (Mt Morgan Gold and Copper Project), Adani General Manager of Corporate Affairs and Business Development Muthuraj Guruswamy (Carmichael Coal Mine and Rail Project), Gladstone Ports Corporation CEO Peter O'Sullivan (East Shores Stage 1B Project), Gladstone Foundation Chair Tim Griffin with CQU Associate Professor Owen Nevin (Community Health Precinct Project), Gladstone Area Water Board Chief Operating Officer John Tumbers (\$35M worth of projects), Queensland Resources Council Chief Executive Ian Macfarlane, and special guest speaker and MC for the day, influential futurist and media commentator Dr Keith Suter

There are still tickets available for the conference along with tickets to the GEA Gala Dinner and Industry Awards night held on the same evening.

It's an event I'd highly recommend and I'm sure this year, once again, it will be very worthwhile attending.
