

Fuel for Thought

QER Visitors Centre

Many Gladstonites have already enjoyed a trip to QER's Visitors Centre, but in case you haven't (or want another look), I thought I'd take this opportunity to remind you about it and let you know that the opening times are changing.

The centre features a range of interactive displays, models and samples to help visitors understand the need for new sources of transport fuels, how our project will help, how our technology works, and how our approach enables us to produce high quality transport fuels in a sustainable way.

We're very proud of the facility and happy for the opportunity to show it off. Over the last few years, we have hosted many VIP's, individual local and out of town visitors, school groups, university groups and community groups. The feedback has been overwhelmingly positive.

From this Monday, the centre will be open for drop in visitors from 8am to 2pm Monday to Friday. Of course if you'd like to visit outside those hours, organise a group visit, or do a more extensive plant tour, just give us a call on 0448 860656 and we would be very happy to arrange at a suitable time with you.

Bruce Andersen
Site Superintendent,
QER

Recently I was very pleased to host the support staff from Xtreme Engineering at the visitors centre.
